

## **“YOUNG GUNS”**

2010

1-01-2010 # 1

**MOST F.M.S. GENERAL RULES APPLY GET A COPY**

**INFO; 843-761-1428 / [www.florencemotorspeedway.com](http://www.florencemotorspeedway.com) cpsupertrk@aol.com**

Race procedure; 12 lap feature event races – Starts and restarts will be double file. Each race the complete finishing order of the just completed race will be inverted for the next race you enter. If you miss a race, when you return you will start your inverted position from the race you missed. Any driver that drives over aggressively such as, running into the side or rear of a competitors car, spinning a competitor out, intentional rough driving will be disqualified from that event and possible future events. Any driver, parent, family member, friend or pit crew member associated with the driver that acts in any unsportsmanlike manner such as a disturbance, threats, foul language, vulgar actions, going into another pit area, etc. and directed toward other drivers and their crew or family The driver will be suspended from competing in any future races at FMS. Safety for the driver is the most important part of the Young Guns class. Second, learning to drive a car in a controlled race and following instructions and discipline of the driver is the requirement to enter any race at FMS.

Any car/driver that out classes other cars/drivers or is superior in speed and handling may be required to install a restrictor plate on the carburetor or fuel injection system to create competition. A reminder, this is a class to learn how to drive a car in a safe controlled race and pass other cars without running into or wrecking a competitor. This is the only class that winning is not the only priority!

Speedway officials may check any part of any car at any time without a protest fee.

A car and engine OEM specification manual must be available for your car to the FMS tec official
